WARNING TO OWNER: Your failure to record a Notice of Commencement may result in your paying twice for improvements to your property. If you intend to obtain financing, consult with your lender or an attorney before recording your Notice of Commencement. The issuance of a building permit does not assure the building setbacks have been met or that the structure does not encroach on an easement. The owner and/or contractor have the sole responsibility of determining compliance with setbacks and non-encroachment of easements. Permits expire 6 months after issuance. You are responsible for the completion of the permit, inspections, and all Re-Inspection Fees.

Owner Builder Disclosure Statement

(Not applicable for properties owned by a Corporation per F.S. 489.103(7))

(Initial to the left of each statement)

___ 1. I understand that state law requires construction to be done by a licensed contractor and have applied for an owner-builder permit under an exemption from the law. The exemption specifies that I, as the owner of the property listed, may act as my own contractor with certain restrictions even though I do not have a license.

___ 2. I understand that building permits are not required to be signed by a property owner unless he or she is responsible for the construction and is not hiring a licensed contractor to assume responsibility.

___ 3. I understand that, as an owner-builder, I am the responsible party of record on a permit. I understand that I may protect myself from potential financial risk by hiring a licensed contractor and having the permit filed in his or her name instead of my own name. I also understand that a contractor is required by law to be licensed in Florida and to list his or her license numbers on permits and contracts.

___ 4. I understand that I may build or improve a one-family or two-family residence or a farm outbuilding. I may also build or improve a commercial building if the costs do not exceed \$75,000. The building or residence must be for my own use or occupancy. It may not be built or substantially improved for sale or lease. If a building or residence that I have built or substantially improved myself is sold or leased within 1 year after the construction is complete, the law will presume that I built or substantially improved it for sale or lease, which violates the exemption.

___ 5. I understand that, as the owner-builder, I must provide direct, onsite supervision of the construction.

___ 6. I understand that I may not hire an unlicensed person to act as my contractor or to supervise persons working on my building or residence. It is my responsibility to ensure that the persons whom I employ have the licenses required by law and by county or municipal ordinance.

___ 7. I understand that it is a frequent practice of unlicensed persons to have the property owner obtain an owner-builder permit that erroneously implies that the property owner is providing his or her own labor and materials. I, as an owner-builder, may be held liable and subjected to serious financial risk for any injuries sustained by an unlicensed person or his or her employees while working on my property. My homeowner's insurance may not provide coverage for those injuries. I am willfully acting as an owner-builder and am aware of the limits of my insurance coverage for injuries to workers on my property.

___ 8. I understand that I may not delegate the responsibility for supervising work to a licensed contractor who is not licensed to perform the work being done. Any person working on my building who is not licensed must work under my direct supervision and must be employed by me, which means that I must comply with laws requiring the withholding of federal income tax and social security contributions under the Federal Insurance Contributions Act (FICA) and must provide workers' compensation for the employee. I understand that my failure to follow these laws may subject me to serious financial risk.

___ 9. I agree that, as the party legally and financially responsible for this proposed construction activity, I will abide by all applicable laws and requirements that govern owner-builders as well as employers. I also understand that the construction must comply with all applicable laws, ordinances, building codes, and zoning regulations.

___ 10. I understand that I may obtain more information regarding my obligations as an employer from the Internal Revenue Service, the United States Small Business Administration, the Florida Department of Financial Services, and the Florida Department of Revenue. I also understand that I may contact the Florida Construction Industry Licensing Board at 850-487-1395 or <https://www.contractorlicensing.com/florida/contractors-licenses.html> for more information about licensed contractors.

____11. I am aware of, and consent to, an owner-builder building permit applied for in my name and understand that I am the party legally and financially responsible for the proposed construction activity at the following address:

Address of Proposed Construction

____12. I agree to notify City of Fruitland Park immediately of any additions, deletions, or changes to any of the information that I have provided on this disclosure.

Licensed contractors are regulated by laws designed to protect the public. If you contract with a person who does not have a license, the Construction Industry Licensing Board and Department of Business and Professional Regulation may be unable to assist you with any financial loss that you sustain as a result of a complaint. Your only remedy against an unlicensed contractor may be in civil court. It is also important for you to understand that, if an unlicensed contractor or employee of an individual or firm is injured while working on your property, you may be held liable for damages. If you obtain an owner-builder permit and wish to hire a licensed contractor, you will be responsible for verifying whether the contractor is properly licensed and the status of the contractor's workers' compensation coverage.

Before a building permit can be issued, this disclosure statement must be completed and signed by the property owner and returned to the local permitting agency responsible for issuing the permit. A copy of the property owner's driver license, the notarized signature of the property owner, or other type of verification acceptable to the local permitting agency is required when the permit is issued.

Virtual Inspection Program

Background – Due to the recent COVID-19 pandemic and social distancing guidelines, we have developed the virtual inspection program. This program is designed to limit the contact to our homeowners and inspection staff by using technology to assure code compliant installations. For now, the program is limited in scope based on existing technology. As technology expands, we will seek to add more inspections to the list.

Overview

Affidavit – must be signed by the licensed holder or someone with a valid POA.

Pictures with location information – we will accept pictures that have their location information provided. This can be found in the file information when you open the pictures on your computer. You will have to enable location services on your phone in order to have your phone tag the photos with the location information. Please educate yourself on this process to avoid submitting photos with no location information. Pictures submitted without location information will not be accepted.

Pictures in the format as prescribed for each inspection type- Please make sure you pay attention to the various picture requirements for certain inspection types.

Submittal – please email in your request along with the pictures or a link to the pictures. Permits@Fruitlandpark.org . Be sure the subject line says virtual inspection. It may take a few emails to get all of the pictures submitted. Please do not compress or zipfile the submittals. You are welcome to include a cloud storage link to the photos.

Inspection – The inspection should take place within 24 hours and the results will be emailed back to the email address where the inspection was requested.

Applications – Please download the appropriate application with each permit type listed below. This form is meant as supplemental information, not to be confused with a complete application.

Affidavit for Virtual Inspections

I _____ a duly licensed contractor in the State of Florida with license number _____ do hereby attest to the fact that the pictures that accompany this affidavit represent the true nature of the work performed at _____ with permit number _____. I also fully understand that intentionally sending in photos of work that is not representative of the work as described above, or by falsifying any of the data associated with this inspection is a punishable offense with DBPR.

Signature of Contractor

The foregoing instrument was acknowledged before me this ____ day of _____, 20____, by _____ who is personally known to me or has produced _____ as identification and who did _____ or did not _____ take an oath.

Signature of Notary Public - State of Florida

Print, type or Stamp Commissioned Name of Notary Public
