Mr. La Venia recalled the city commission's actions at its May 10, 2018 regular meeting to continue the item in question to this evening's meeting subject to receiving a revised map. He relayed Chief Fewless' satisfaction to same which depicted roadways and intersections on county arterials allow and prohibiting golf cart access.

#### **i. FRDAP**

Mr. La Venia referred to another Florida Recreation Development Assistance Program (FRDAP) grant received for \$100,000 for FY 2018-19 towards Gardenia Park's Skateboard Park improvements and reported that for FY 2019-20, the city would be eligible to receive \$100,000 for more FRDAP grants.

#### **ii. Shiloh Street and Cutoff Road Proposed Improvements - Transfer ILA**

Mr. La Venia recalled the city commission's acceptance, at its April 12, 2018 regular meeting, for Shiloh Street's proposed improvements; however, he recognized that there was no interest for Cutoff Road. He addressed his plans for the interlocal agreement to be placed on the June 14, 2018 regular meeting agenda for consideration.

In response to inquiries posed by Commissioners Lewis and Ranize, Mr. La Venia confirmed that the county would not concrete and asphalt the roadway .

Commissioner Lewis gave his recollections at the May 22, 2018 workshop meeting when Mr. Greg Beliveau, LPG Urban and Regional Planners Inc., addressed the curb types under Chapter 157 of the Land Development Code. He noted the city commission's idea that the county would curb its roads which Commissioner Lewis believes to be inaccurate -- recognizing the various types of county roads without curbing and acknowledging that developments are being implemented -- and questioned whether same could be lobbied for Shiloh Street. He voiced his acceptance of the respective proposed improvements offered for Shiloh Street at this time, if the county is willing to separate same.

**(iii) Meeting Absence**

Later in the meeting, Mr. La Venia indicated that he will be absent from the August 23, 2018 regular meeting as he would have the opportunity to sail on the US Coast Guard Eagle with his son for a week and requested to be excused.

In response to Commissioner Lewis' reasons requesting that the regular meeting be rescheduled or cancelled, Mayor Cheshire suggested postponing same to the next meeting in order for the city commission to make a determination.

**(b) City Attorney**

**i. Notice of Claim – James Hartson**

Ms. Geraci-Carver announced that there are no updates on outstanding claims for James Hartson.

**ii. Notice of Claim – Larry Odum**

Ms. Geraci-Carver announced that there are no updates on outstanding claims for Larry Odum.

**iii. Traffic Control – County Road**

Ms. Geraci-Carver referred to the question raised at the April 26, 2018 Local Planning Agency (LPA) meeting regarding the city's enforcement of traffic control on county roadways.

Ms. Geraci-Carver explained:

- the police department's dual control, with the Lake County Sheriff's Office (LCSO), to enforce traffic control, if the county road is located in the city;
- if only half the county's roadway is in the city, that portion would be the jurisdiction that the LCSO has control over, and
- the inability to enter into an ILA with LCSO to allow the city's law enforcement to patrol county roads which are not within the city's jurisdiction.

Commissioner Ranize referred to his previous discussion and review with Ms. Geraci-Carver on the city's jurisdiction on Lewis Road all the way to the 90-degree curve and questioned whether written confirmation could be obtained from the county on the correctness of same.

After Commissioner Ranize referred to the city's jurisdiction of Poinsettia Avenue on the first curb north bound towards Spring Lake Road and recognized the city's responsibility for roadway maintenance as it is where

the city limit ends, Ms. Geraci-Carver explained in response that the city would have jurisdiction if it takes ownership of the roadway and indicated that when the county transfer jurisdiction of its roadway to the city, the city can patrol same.

Ms. Geraci-Carver concurred in the affirmative to Commissioner Ranize' request to obtain clarification in this regard from the county attorney and questioned the city's law enforcement issuing citations on Pine Ridge Dairy Road. He referred to the provision under Enforcement, Municipalities from subsection 316.640(3)(a), Florida Statutes: . . . *The police department of each chartered municipality shall enforce the traffic laws of this state on all the streets and highways thereof and elsewhere throughout the municipality wherever the public has the right to travel by motor vehicle.* . . . to which Ms. Geraci-Carver noted the roadways within the city, even if they are county, state or federal arterials.

Commissioner Ranize questioned the city's ability to issue traffic citations on Myrtle Lake Avenue towards The Glen Subdivision; noted that the city does not have jurisdiction in that regard and recognized the city's inability to respond to residents of the unincorporated area of the city; however, he recognized the city's ability to issue traffic citations.

Ms. Geraci-Carver recognized the city's annexation of properties on both sides of the roadway to be contiguous -- even though the county's roadway is not annexed into the city -- and indicated that its ownership of or jurisdiction for traffic control purposes on the respective roadway is not required to be annexed.

In response to Vice Mayor Gunter's inquiry, Ms. Geraci-Carver addressed the ability for the city to annex the right-of-way (ROW), if the county is transferring jurisdiction of the roadway to the city and noted possibility for the city to annex the roadway, if it does not have annexation on both sides of the roadway; thus, the capability for the police department to patrol same.

Commissioner Lewis concurred with Vice Mayor Gunter's suggestion to annex both sides of the road's ROW.

Subsequent to further discussion, Commissioner Ranize suggested that Ms. Geraci-Carver obtain clarification from the county, if the city:

- owns a portion of Lewis Road on one side;
- owns a little on CR 468,
- has legal jurisdiction all the way to Griffin Road,
- does not own property on city limits of Poinsettia Avenue and the same for Pine Ridge Dairy Road, and

- has city limits at The Glen Subdivision coming from Myrtle Lake Avenue.

After Vice Mayor Gunter recalled the police department in 1998 issuing citations on the city's roadways to the county line, Ms. Geraci-Carver addressed her plan to meet with Mr. Beliveau to compare the zoning map and subsequently communicate with the county for confirmation.

**iv. Storm Debris ILA**

Ms. Geraci-Carver referred to the storm debris collection from streets and ROW ILA with the county that the city was part of on July 25, 2006; indicated that the county is amending same by proposing a new ILA and mentioned the intent to present same at the next meeting, if it is the city commission's desire to be a part of same.

**v. Public Safety Radios ILA**

Ms. Geraci-Carver referred to Chief Fewless' previous discussions with the city commission at its May 10, 2018 regular meeting regarding the countywide public safety radios. She indicated that the county needs the number of municipalities participating and the units required as reasons why the county does not have an exact price; anticipated that the county will be seeking financing in July and relayed its request for cities to make a decision during the month of June 2018.

Mr. La Venia explained that figures for the radios from Chief Fewless, Interim Fire Chief Gilpin and Mr. Bogle will be provided by the next meeting to which Ms. Geraci-Carver voiced her concurrence to same.

**7. PUBLIC COMMENTS**

No one from the public came before the city commission at this time.

**8. COMMISSIONERS' COMMENTS**

**(a) Commissioner Ranize**

**i. School Safety**

Commissioner Ranize mentioned Lake County District Superintendent Dr. Diane Kornegay's plan to establish a meeting with the city commission in June 2018 and addressed the need to reach a consensus on School Resource Officers.

After Mayor Cheshire referred to the May 21, 2018 school board workshop on school safety where a decision was not reached on the options (outlined under SB 7026, Safe School Officers), Commissioner Ranize noted the input the school board requires from the municipalities.

Commissioner Ranize referred to the state's mandate on safe-school officers that each district school board and school district superintendent

partner with law enforcement agencies to establish or assign one or more safe-school officers at each school facility within the district. He questioned the ratio of Fruitland Park Elementary School Students for one school resource officer (SRO); noted the allocation of Florida Education Finance Program funds of approximately \$1.3 million for FY 2018-19 to the county which he believes is inadequate and questioned the city's responsibility to fund the difference as well as locating funds for the following fiscal year.

Commissioner Ranize pointed out his previous discussions with District 1 School Board Member Bill Mathias who is uncertain of the school board's decision; referred to the recent newspaper article regarding SROs in this regard and mentioned his conversations with individuals at a prior LCSO retirement luncheon as a result of what was read in the paper on the source of funding. He questioned the city commission's thoughts as the matter would help provide some type of guidance to the school board.

After discussion, Mayor Cheshire explained that he would like to know the options addressed at the school board's workshop before inviting anyone to appear before the city commission.

Mr. La Venia indicated that he was made aware of the subject issue a week ago and relayed his conversations with Chief Fewless and District 2 School Board Member Dr. Kristi Burns; conveyed that she had no direct answer as they would like more opportunity to address same with Dr. Kornegay and welcomed them to attend a future city commission meeting where a decision would be made.

Captain Luce outlined the options on establishing SRO programs with the school board; mentioned the entering of mutual aid agreements and the implementation of the United States Armed Forces or the National Guard, county sheriff, or local law enforcement and described the type of training and instruction required.

Mr. La Venia, in response to Mayor Cheshire's remarks, referred to the May 22, 2018 Daily Commercial newspaper article entitled: "School Board Wants Cops in Every School Next Year"; a copy of which is filed with the supplemental papers to the minutes of this meeting.

After discussion and in response to Mayor Cheshire's explanation that the city commission was not knowledgeable about the school board's plan, Commissioner Ranize indicated that a decision cannot be made until the school board knows the city's position and relayed School Board Member Mathis comments to him relaying other local police chiefs' being favorable of the subject issue even though their respective governing bodies have not been asked. Commissioner Ranize expressed concerns

with the article where it referenced: *Fruitland Park is the only city that has not agreed to pick up some of the cost, district officials say . . . .*

Following extensive discussions by the city commissioners to not make a decision on the subject issue, Mayor Cheshire suggested in response to wait until the outcome of same.

**ii. Wastewater Connection (Sewer Line)**

In response to Commissioner Ranize' inquiry, Mr. La Venia gave the status of the sewer line connection anticipated to be complete by October 1, 2018.

**iii. Grease Traps**

Mr. La Venia, in answer to an inquiry posed by Commissioner Ranize, referred to a recent meeting staff had with the Town of Lady Lake regarding the grease traps.

As a result, Mr. La Venia addressed the plan for Ms. Lori Davis, Code Enforcement Officer, and Mr. Bogle to proceed in drafting a letter – with the information received from the town -- and approach the restaurant and motor vehicle repair businesses outlining the city's concerns with the grease traps and the possibility of oil disposal into the drains.

**iv. Stormwater – Mirror Lake Village**

Commissioner Ranize reported on his observation of stormwater retention pond at Mirror Lake Village after the recent rainfall over several days and questioned those in charge of repairing same.

In response to several inquiries posed by Commissioner Ranize, Mr. La Venia referred to his previous telephone call to St John's River Water Management District (SJRWMD) where he is expecting a response from Mr. William "Bill" Carlie, SJRWMD; mentioned the anticipation of receiving approximately four to eight inches of rainfall over the next three or four days, and explained that the pond that was observed is full where there is no other means for the water to expel other than to the bank and the big retention basin which is completely dry.

Mr. La Venia stated that he would give a call to Mr. Keith E. Riddle -- Riddle Newman & Engineering Inc. (engineers previously retained for the subject project and who appeared before the city commission at its April 12, 2018 regular meeting -- on the subject issue.

Following further discussion, Mayor Cheshire noted that as rain is expected this weekend, he suggested arranging for someone to review the stormwater retention pond.

**(b) Commissioner Lewis – Traffic Control – County Road**

Commissioner Lewis commended Captain Luce on the questions raised by the city commission at its April 26, 2018 LPA meeting on traffic control on county roads and referred to his May 4, 2018 email regarding Enforcement, Municipalities from subsection 316.640(3)(a), Florida Statutes: (A copy of the email is filed with the supplemental papers to the minutes of this meeting.)

**(c) Commissioner Bell**

Later in the meeting, Commissioner Bell praised the police department on their recent activities on the corner of Berckman Street and Dixie Avenue to which Captain Luce reported that it was an unplanned event at the four-way stop sign where within an hour, 25 traffic citations were issued as drivers were not wearing their seat belts.

**(d) Vice Mayor Gunter, Jr.**

Vice Mayor Gunter requested that the city commission excuse his absence for the month of June 2018.

**9. MAYOR'S COMMENTS**

**i. Fastest Growing City**

Mayor Cheshire referred to the May 24, 2018 article from The Villages Daily Sun entitled "Fruitland Park Emerges as U.S. Growth Leader" where it captioned that *Fruitland Park recently was identified as the nation's fastest-growing city of its size*. Mayor Cheshire attributed that as a result of the guidance received from staff and the city manager. (A copy of the article is filed with the supplemental papers to the minutes of this meeting.)

**ii. Ordinance 2018-005 Golf Carts**

With respect to the golf carts, Mayor Cheshire believed that an accident is a matter of when; compared The Villages who have dedicated lanes and paths with the historical city who drive golf carts with traffic which he deemed to be dangerous and felt that the city ought to limit them as much as possible.

**iii. Coffee with the Mayor**

Mayor Cheshire reported that the May 19, 2018 "Coffee with the Mayor" event had a small turnout as compared with the last and attributed it to be that the city is conducting a satisfactory job and everyone else was watching the May 21, 2018 royal wedding.
