

Demo Permit

I,______, the applicant for a City of Fruitland Park Demolition Permit, hereby certify that the proposed structure for demolition is ______ (3) three stories, or less, as exempted from licensing requirements by Chapter 489.105 (3), Florida Statutes, or _____ the structure is above three stories. (Please check appropriate line above)

Property Alternate Key No. : _____

Provide Legal Description of proposed demolition property or attach property records card.

I certify that I have provided to the City of Fruitland Park Building Department the following list of items

_____ Copies of all licenses and insurances. (Required when a contractor is named)

Owners affidavit (signed and notarized)

Proof of ownership for the property to be demolished. (Tax receipt, property records card or warranty deed)

I certify that I have notified all utility companies (power, gas, water, sewer, cable and telephone) of my intentions to demolish the above described structure.

I certify that all debris from the demolition will be taken to the appropriate Solid Waste drop off site and disposed of properly. The receipts from the Solid Waste drop off site will be posted at the job site for final inspection.

I certify that if it is determined that asbestos is found in the structure, all requirements concerning asbestos abatement outlined in Chapter 469, Florida Statutes, will be strictly followed.

I understand that two inspections are required. One inspection before demolition begins for verification that all utilities have been disconnected in an appropriate manner, and a final inspection after the structure is demolished and all debris removed from the site.

DEP Form 62-257.900(1) Effective 2-9-99 Page 2 of 2

Instructions

The state asbestos removal program requirements of s. 376.60, F.S., and the renovation or demolition notice requirements of the National Emission Standards for Hazardous Air Pollutants (NESHAP), 40 CFR Part 61, Subpart M, as embodied in Rule 62-257, F.A.C., are included on this form.

Check to indicate whether this notice is an original, a revision, a cancellation, or a courtesy notice (i.e., not required by law). If the notice is a revision, please indicate which entries have been changed or added.

Check to indicate whether the project is a demolition or a renovation.

If you checked demolition, was it **ordered** by the State or a local government agency? If so, in addition to the information required on the form, the owner/operator must provide the name of the agency ordering the demolition, the title of the person acting on behalf of the agency, the authority for the agency to order the demolition, the date of the order, and the date ordered to begin. A copy of the order must also be attached to the notification.

If you checked renovation, is it an **emergency renovation operation**? If so, in addition to the information required on the form, the owner/operator must provide the date and hour the emergency occurred, the description of the sudden, unexpected event, and an explanation of how the event caused unsafe conditions or would cause equipment damage or an unreasonable financial burden. If you checked renovation and it is a **planned renovation operation**, please note that the notice is effective for a period not to exceed a calendar year of January 1 through December 31.

- I. Complete the facility information. This section describes the facility where the renovation or demolition is scheduled. This address will be used by the Department inspector to locate the project site. Provide the name of the consultant or firm that conducted the asbestos site survey/inspection. For "prior use" check the appropriate box to indicate whether the prior use of the facility is that of a school, college, or university; residence, as "residential dwelling" is defined in Rule 62-257.200, F.A.C.; small business, as defined in s. 288.703(1), F.S.; or other. If "other" is checked, identify the use. Please follow the same instructions for "present use."
- II. Complete the facility owner information.

ц ^с

1

- III. Complete the contractor information; however, a Florida license number or disclosure of that number is not required to comply with the notice requirements.
- IV. List separately the scheduled start and finish dates (month/day/year) for both the asbestos removal portion of the project and the renovation or demolition portion of the project.
- V. Check the methods and procedures to be used. (Note: The NESHAP for asbestos, which is adopted and incorporated by reference in Rule 62-204.800, F.A.C., requires obtaining Department approval prior to using a dry removal method.)
- VI. Describe the procedures to be used in the event unexpected RACM is found or previously nonfriable asbestos material becomes crumbled, pulverized, or reduced to powder after start of the project.
- VII. Complete the asbestos waste transporter information.
- VIII. Complete the waste disposal site information.
- IX. List the amount of RACM or ACM of each type of asbestos to be removed. (Note: A volume measurement of RACM off facility components is **only** permissible if the length or area could not be measured previously.)
- X. Provide the address where the Department is to send the invoice for any fee due. Do not send a fee with the notification. The fee will be calculated by the Department pursuant to Rule 62-257.400, F.A.C.

Sign the form and mail the original to the district or local air program having jurisdiction in the county where the project is scheduled (**DO NOT FAX**). The correct address can be obtained by contacting the State Asbestos Coordinator at: Department of Environmental Protection, Division of Air Resources Management, 2600 Blair Stone Road, Tallahassee, FL 32399-2400.
