

RESOLUTION 2006-022

A RESOLUTION OF THE CITY COMMISSION OF THE CITY OF FRUITLAND PARK, FLORIDA, PERTAINING TO COMMUNITY REDEVELOPMENT; FINDING THE AREAS DEPICTED ON ATTACHED EXHIBIT "A" TO BE SLUM AND BLIGHTED AREAS; FINDING THAT REHABILITATION, CONSERVATION, AND REDEVELOPMENT OF THE AREA IS NECESSARY IN THE INTERESTS OF THE PUBLIC HEALTH, SAFETY, MORALS, OR WELFARE OF THE CITY RESIDENTS; ACCORDINGLY ACCEPTING THE RECOMMENDATION OF THE COMMUNITY REDEVELOPMENT AGENCY TO AMEND THE BOUNDARIES OF THE REDEVELOPMENT AREA OF THE COMMUNITY REDEVELOPMENT PLAN; PROVIDING FOR AN EFFECTIVE DATE.

WHEREAS, the City of Fruitland Park Community Redevelopment Agency finds and determines that the areas depicted on attached Exhibit "A" are slum and blighted areas; and

WHEREAS, the City of Fruitland Park Community Redevelopment Agency finds and determines that rehabilitation and redevelopment of the areas depicted on attached Exhibit "A" is necessary in the interests of public health, safety, and welfare; and

WHEREAS, City of Fruitland Park Community Redevelopment Agency accordingly recommends amending the boundaries of the current redevelopment area; and

WHEREAS, the City of Fruitland Park City Commission accepts the study attached hereto as Exhibit "B" and the recommendations to amend the boundaries of the Community Redevelopment Area.

NOW, THEREFORE BE IT RESOLVED BY THE CITY COMMISSION OF THE CITY OF FRUITLAND PARK, FLORIDA AS FOLLOWS:

Section 1. The report attached hereto as Exhibit "B" and incorporated herein by reference is hereby accepted as evidence of the presence of slum and blight, as defined in F.S. 163.340, and the need for redevelopment, rehabilitation, and conservation in the areas depicted on attached Exhibit "A."

**Section 2.** The City Commission of the City of Fruitland Park finds and determines that the redevelopment, rehabilitation, and conservation of the area depicted on attached Exhibit "A" is necessary in the interests of the public health, safety, and welfare of the residents of the City of Fruitland Park.

**Section 3.** The City Commission of the City of Fruitland Park accordingly accepts the Fruitland Park Community Redevelopment Agency's recommendation to amend the current boundaries of the Redevelopment Area in the manner depicted on Exhibit "A" attached hereto and incorporated herein by reference.

**Section 4.** The City Commission of the City of Fruitland Park hereby adopts the revised Community Redevelopment Plan reflecting the amended boundaries of the Community Redevelopment Area.

**Section 5.** This Resolution shall take effect immediately upon its final adoption by the City Commission of the City of Fruitland Park.

**PASSED AND RESOLVED** this 14th day of September, 2006 by the City Commission of the City of Fruitland Park, Florida.

  
Christopher J. Bell, Mayor

## SECTION 1. INTRODUCTION

As the City residents and the merchants of downtown Fruitland Park consider initiating redevelopment of its downtown, the first question that comes to mind is why. Why spend money redeveloping or improving its downtown and residential areas?

There are several reasons that redevelopment improvements in the area should be undertaken. Among these are:

- Improving the quality of life for the City's residents.
- Downtown is the heart of the community.
- The community needs to protect and preserve past public and private investments in downtown.
- Property values can be increased with residential and commercial renovations.
- The image presented by the downtown and residential areas reflect the community itself.
- Downtown will always be a high maintenance area, regardless of economic viability.
- New developments, both residential and commercial, will render economic growth for the City.

### **Improving the Quality of Life for the City's Residents**

The Community Redevelopment Plan will offer a revitalizing renovation to the City as a whole, creating a sense of place and community. During the redevelopment process, the City's economy will improve and the community will thrive. Providing a safer, more aesthetically pleasing living environment will enhance the resident's surroundings.

### **Downtown is the Heart of the Community**

Downtown Fruitland Park is the historic and symbolic center of the community. As the community's heart, it is the downtown that maintains the City's pulse. Fruitland Park's heritage is preserved in its downtown.

### **The Community Needs to Preserve and Protect Investments in Downtown Fruitland Park**

Over the years, both public and private interests have invested in the downtown. Private

individuals have established buildings and businesses downtown and the City has provided services for these buildings and businesses. The City has provided streets, water, parking and sidewalks to the downtown. Even with the demise of the downtown, the streets, water lines and drainage system would still need maintenance. For businesses to continue operation, efficient services must be available. Even if business operations in downtown falter, the City will still have to provide the same services.

### **Property Values Can Be increased with Residential and Commercial Renovations**

For both the residential and downtown areas, renovated and new buildings have the potential to increase property values. The improved structures and surrounding areas in the City will benefit from the renovations. The vicinity around the new development will have an incentive to improve their businesses and residences as well; thus, providing a unified and well kempt community. As a result, the community will be well-received by both the residents and visitors of the City.

### **The Image of Downtown Reflects the Community**

One of the first places a new resident, or potential resident, visits is the community's downtown. Is the downtown clean and neat? Is it cluttered? Are buildings and lots occupied or vacant? Are there people downtown? Is signage appealing and helpful? If the downtown looks well maintained and active, the image of the community will be viewed the same. The image of the downtown reflects upon the community as a whole. A vital downtown indicates a vital community; a community that is a good place to live and work. Such a community has better odds of attracting new businesses and maintaining a strong tax base.

### **The Downtown Will Always be a High Maintenance Area .**

With the many roads, public utilities and public properties in downtown, it will always be a high maintenance area. Regardless of whether business in downtown is thriving or not, the infrastructure system must be maintained and replaced when needed.

With an economically viable downtown, the tax dollars generated by its businesses will

more than pay for the provisions of public services. Without a viable downtown, the area becomes a tax drain, taking general fund monies from other areas to support ailing infrastructure. Because of past investments made in the downtown, it is imperative that the community ensures that the downtown remains vital so that it is a contributor to the economy, not a drain upon public revenues.

### **Residential & Commercial Developments Will Render Economic Growth for the City**

Improvements to the downtown and residential areas benefit both property owners and the community. As property values increase, tax revenues and resale values of the property also increase. Increasing property values creates a good investment and reinvestment atmosphere.

In any market like Fruitland Park, businesses are never equal to their competition; they are either ahead or behind. To keep ahead of the competition, the downtown businesses must anticipate its competition. As the area grows, new commercial attractions will develop. The residential area will also expand and the new residents will need to be accommodated. Renovating the residential areas will not only make Fruitland Park a more attractive place to move for potential visitors, but the current citizens will also benefit economically from the improvements.

These new commercial developments will compete for existing and future funds. It is much easier for downtown Fruitland Park to keep its existing clientele and win new clientele as new people move into the area than to win back clientele lost to other shopping markets. Investing now in downtown Fruitland Park's future will be much more productive than waiting and investing later.

### **The Community Redevelopment Act of 1969**

The legislature of the State of Florida, in recognizing that certain areas exist in communities of this State which constitute an economic and social liability by decreasing the tax base, impairing sound growth, or creating other burdens upon the larger community, has provided through the Community Redevelopment Act of 1969 a means for the local community

to conserve, rehabilitate, or redevelop the area, to serve the interests of the public health, safety, morals or welfare of its citizens. Chapter 163, Part III, of the Florida Statutes, titled "Community Redevelopment," lays out the requirements for establishing a community redevelopment area, a community redevelopment agency, preparing and adopting a community redevelopment plan and establishing the tax increment finance district to pay for improvements in the area.

The Fruitland Park downtown and residential areas both exhibit evidence of deterioration and a decrease in the relative share of the tax base. It is vital to the community that both areas provide its proportionate share of revenues. The downtown area should be redeveloped in order to become the focal point for the City and region. The residential area requires improvements that convey a welcoming and safe environment for current residents and visitors of the City. The Community Redevelopment Plan, and the use of the tax increment financing method, allows the preservation and enhancement of the tax base so that the CRA area pays a higher share of City services than it presently does. Further, it encourages private development through the provision of incentives, stimulates improved use of underutilized land and prevents further deterioration that has previously resulted in a lower proportionate tax base.

The legislation provides specific requirements for a community redevelopment plan. It is necessary that a redevelopment area be designated by resolution of the governing body and that the plan conforms to certain statutory requirements. The redevelopment plan must conform to the community's comprehensive plan, must be sufficiently complete to indicate acquisition, demolition and removal activities, as well as redevelopment or rehabilitation proposed to be carried out in the area. The plan shall recommend planning and zoning changes, land use categories, maximum densities and building requirements. It is required that the plan provide for relocation should any families be displaced by activities recommended in the plan. There shall be due consideration to adequate park and recreation facilities, especially considering the health, safety and welfare of the children in the planning area. It is important that the plan affords maximum opportunity for rehabilitation or redevelopment by

private enterprise. Any recommended non-residential uses shall be necessary and appropriate for the proper growth and development of the community.

The legislature has determined that the preservation or enhancement of the tax base providing tax revenues to the community is essential to the financial health of the community. Further, it has been determined that redevelopment in a community redevelopment area will enhance the tax base, providing increased tax revenues to all affected taxing authorities, thereby, increasing their ability to accomplish their appropriate purposes.

### **Purpose of the Fruitland Park Community Redevelopment Plan**

It has been recognized for a number of years that downtown Fruitland Park, which includes the commercial area along U.S. 27/441, plays an important role in the viability of the City's economy. The viability of the residential areas outlining the main corridors of the downtown area is equally as important. Over recent years, a number of actions have been initiated to recognize the special role of the City's commercial areas and to strengthen its economic position.

Downtown Fruitland Park is a unique and economically significant section of the City. Special attention should be given to preservation, redevelopment, rehabilitation and enhancement. While previous efforts in downtown Fruitland Park have been centered on marketing, business retention, public improvements and parking control it is now time that program emphasis be expanded to more general economic development activities. In conjunction with the downtown redevelopment, the residential areas need to be focused on as well. These activities include upgrading the infrastructure, landscape and road improvements, building reconstruction and renovation, more aggressive recruitment of business activities to the downtown and identifying and pursuing new development opportunities. This can best be accomplished through the adoption of a community redevelopment plan for the City of Fruitland Park. It is the purpose of this plan document to set forth the Community Redevelopment Plan for downtown Fruitland Park as well as neighborhoods within the City.

## **Contents of this Report**

This document sets forth the Community Redevelopment Plan for the City of Fruitland Park. The sections of this document include an introduction, an identification of needs, deficiencies and strengths, major goals, objectives and policies, a financial plan, an overview of intergovernmental coordination, a statement of the relationship of the Community Redevelopment Plan to the existing Fruitland Park Comprehensive Plan and other local policies, plans and ordinances, a code of ethics and supplemental materials.

## **SECTION 2. IDENTIFICATION OF NEEDS, DEFICIENCIES AND STRENGTHS**

### **History of the creation of the Fruitland Park Redevelopment Plan**

The development of the City's comprehensive plan specifically identified the need to address redevelopment as well as recognizing capital improvement needs for the downtown area. The comprehensive plan does not, however, specifically address both private and public improvements that are generally aesthetic in nature but necessary for the success of the downtown and residential areas.

The other driving force behind the development of this plan is the Community Redevelopment Act of 1969, which provides a means for the local community to conserve, rehabilitate or redevelop an area and for the establishing of the tax increment finance district to pay for improvements in the area.

### **The Physical Environment**

The land uses within the community redevelopment area are commercial office, residential, retail and recreation. The commercial uses within the CRA include a variety of businesses including restaurants and service businesses. Residential uses are scattered throughout the study area. While there was little residential in the existing CRA area the majority of the proposed expansion is residential.

While the need for such uses as adequate parking may affect the downtown areas to a greater degree, the downtown and residential areas share similar needs such as adequate road right-of-ways, sidewalks and lighting. Some of these examples may be seen in the windshield survey of the residential area; road improvements are needed as well as sidewalks in the residential community.

### **Structural Condition Survey**

The condition of the buildings in the CRA study area varies considerably. While most of the buildings are structurally sound, there are significant numbers of deteriorated and dilapidated buildings throughout the residential and downtown areas. The survey of structural

conditions conducted was based upon the following definitions:

Standard: A standard structure has no visible defects or, possibly, some slight defects correctable in the course of routine maintenance.

Slightly Deteriorated: A slightly deteriorated structure is structurally sound but is off a routine maintenance program such that deteriorating characteristics become a visible menace. Continuation of this deterioration would eventually result in the structures becoming more seriously deteriorated. Repairs, more than regular maintenance, are required to bring the structure up to standard.

Deteriorated: A deteriorated structure requires structural repairs not provided in the course of routine maintenance. Such a structure has one or more defects that must be corrected if the unit is to continue providing safe and adequate shelter.

Dilapidated: A dilapidated structure no longer provides adequate shelter. Such a unit endangers the health, safety or well-being of the inhabitants. This structure has one or more critical defects or a combination of intermediate defects in sufficient number that rehabilitation is not feasible.

The presence of dilapidated structures that are infeasible for rehabilitation can present a negative image of the area. Dilapidated structures can be an eyesore, a hazard and an attractive nuisance. Structures that are deteriorated may exhibit many of these same opportunities, but are feasible for rehabilitation. Routine inspections and code enforcement are the primary means to remove dilapidated structures at the current time.

When the deteriorated or dilapidated buildings are providing housing to individuals, the problem is especially difficult. If the structures are suitable for rehabilitation, temporary living quarters must often be found while rehabilitation takes place. If the structures are dilapidated and infeasible for rehabilitation, it is then necessary to find other housing for individuals living

there.

## **Sidewalks**

A visual observation of the pedestrian system in the CRA study area indicates that sidewalks are insufficient in meeting either the recreational or commercial pedestrian traffic needs. A number of sidewalks have been installed and are being used in the existing CRA area since the inception of the CRA. The success of these sidewalks further proves the need for the same in the proposed expanded area, which is predominantly residential. Sidewalks also need to be considered along the right-of-ways that are slated for expansion.

It is important to provide paved walkways and properly designed ramps to make public facilities in the general downtown area more accessible to all individuals, including people with disabilities. Pedestrian access is a major development concern of the City Commission and citizens of Fruitland Park for the enhancement of the CRA. Sidewalks are extremely important in residential neighborhoods to ensure that children can safely make it from the bus stop home and be able to walk in a safe environment. The following is a partial listing of areas that should receive first priority for sidewalks.

### Streets in need of new or repaired sidewalks:

- Dixie Avenue (from North to South ends) – sidewalks have been completed from Wal-Mart to Berckman St. The portion north of Berckman St. to 441 is currently being engineered.
- Pennsylvania Avenue
- Griffin Road (East)
- Foxhill Road
- Picciola Cutoff (Between U.S. 27-441 and Hamlet Court)

The City has completed the sidewalks on Palm Street, which had been projected as a need in the previous CRA document.

## **Gardenia Park**

The City will continue to maintain Gardenia Park, the linear park that was created pursuant the CRA identifying it as need. This park is located at the abandoned railroad right-of-way between Berckman and Fruitland Streets. A municipal swimming pool, handball and volley ball courts as well as other types of recreational activities have been constructed.

## **Drainage**

The City has recently created a Stormwater Department and initiated a stormwater fee. The drainage system in the downtown area is primarily controlled swales, ditches and culverts. As improvements are made in the downtown, every effort should be made to assess the impact that the improvements will make to the immediate drainage system and to determine if cost-effective improvements can be made to the system during the construction of the improvements. Every effort should be made to establish a master drainage plan for the CRA and the City as a whole that can be referenced during phased improvements to specific locations in the downtown. A partial listing of streets within the redevelopment area that should receive first priority for drainage improvements is listed below:

1. Dixie Avenue – the County is in the process of having this improvement engineered
2. Pennsylvania Avenue
3. Foxhill Road
4. Fruitland Street
5. Seminole Street
6. Berckman Street
7. Olive Street
8. Lemon Street

## **Water Facilities**

The water facilities system currently impacts the ability of the CRA to promote growth of certain services in the downtown due to limitations. The City is currently considering several options to extend water services within the CRA. Additional studies will be necessary to address additional growth and development within the CRA. The following describes some examples

within the CRA that could benefit from improved water facilities:

Install larger PVC main in Palm Street to replace 6" asbestos-concrete pipe, install new 6" mains in Pennsylvania, Plumosa and Phoenix Avenues to replace 2" and 6" asbestos-concrete mains in backyards and install 6" main in Forest Street to replace a 1 ¼" main.

### **Sewer Facilities**

The City has a newly constructed Sewer facility located on Spring Lake Rd. The City is considering several options to expand this facility.

### **Fire Protection**

As aging water lines are replaced and as new water service is provided within the CRA, fire protection should be improved through the installation of sufficiently sized water lines to meet commercial and residential fire flow requirements. In addition, sufficient fire hydrants and valves should be installed with all new water line extensions. These improvements will have a positive impact on the current fire protection system and will provide an incentive for the location of new businesses. A listing of streets within the CRA that should receive high priority for waterlines and fire hydrants are provided below:

1. Poinsettia and Spring Lake Rd – Lines are currently being engineered for this area
2. Dixie Avenue (from Miller to South End at U.S. Hwy 27/441)
3. CR 466A
4. Spring Lake Rd. and U.S. Hwy 27/441 (North of the Buick dealership)

Streets that have benefited from the CRA planning and have had lines installed are Palm Street, Pennsylvania Avenue, Plumosa Avenue, Phoenix Avenue, Areca Avenue and Forest Street.

### **Parks**

The City of Fruitland Park has several acres of excellent parks. This recreational

resource provides a certain amount of tourist and recreational traffic into the CRA. Improvements needed for local parks include parking lot paving and acquisition of land for additional parking. Beyond parking facilities, additional landscaping, utility relocation, sidewalk and crosswalk improvements are necessary. Below is a listing of local parks and the types of improvements that are needed.

1. Veterans Memorial Park
  - Improvement of existing parking, replacement of 2" water main with 6" (or larger) to provide sufficient fire and irrigation flow.
2. Shiloh Cemetery adjacent to Park
  - Extend sidewalk from Cales to CR 466A / Miller Rd.
3. Gardenia Park
  - The 'Fruitland Park Trail' has been proposed along the old railroad right-of-way and is to connect with Leesburg's trail. This park needs those improvements associated with a trail head. In addition, a water fountain is needed.

Note: All parks could use additional landscaping.

### **Residential Housing Impact**

The majority of the structures in the expanding CRA are residential. The CRA shall address residential impacts through the following manner:

1. Promote the rehabilitation of residential units through both private and public resources (i.e., CDBG and SHIP funds). Financial institutions participating in the loan pool shall actively promote financing of residential rehabilitation in and adjacent to the CRA.
2. Active code enforcement will be utilized to insure safe, sanitary housing conditions in the CRA. The CRA agency

should review the LDR and the building code requirements to insure a consistent policy with CRA Agency objectives for existing and future residential structures in the CRA.

3. The CRA Agency shall monitor the conversion of residential units to commercial use to insure that involuntary displacement does not occur and that the conversion construction is consistent with the goals for the CRA and the aesthetic goals of the CRA Agency.

### **Traffic Intersections and Signalization**

A preliminary field investigation finds that several areas within the CRA are not conducive to pedestrian use. These areas can be improved by providing landscaping and therefore, provide a visible justification for pedestrian use. Furthermore, engineering design improvements making pedestrian accessibility a priority can be achieved throughout the CRA. It may be necessary to conduct a more extensive engineering investigation of intersections, especially high hazard locations, in order to identify additional improvements as part of Fruitland Park's ongoing roadway maintenance and improvement program. A Preliminary list of intersections that could benefit from additional landscaping, signalization and cross walks is listed below:

1. Dixie Avenue at Griffin Street, Fruitland Street, Forest Street, Palm Street and Pennsylvania Avenue.
2. U.S. Hwy 27/441 at Miller Street, Berckman Street, Beam Street, Segal Street, Forest Street, Palm Street and Grizzard Street.
3. A study is currently being conducted to see if the intersection of Berkman Street and Dixie Avenue would benefit from either a 4-way stop or signalization.
4. CR 466A / Miller St. from U.S. Hwy 27/441 to the Sumter County line – aesthetic enhancements, signals, street lights, bike lanes, sidewalks, traffic signals and reuse lines for irrigation.

## **Parking**

The current need for parking is based on the number of on and off-site spaces currently available, but takes into consideration available parking on existing major roadways and the grandfathering of existing land uses that may adversely impact the availability of downtown parking. The City of Fruitland Park utilizes a traditional parking strategy; parking requirements are tied to zoning, specific structural uses and the size of the structure being used.

The current planning system requires the utilization of prime commercial property for parking, hindering the expansion or development of many of the vacant parcels in the downtown area. A reverse strategy has been utilized in other communities that were facing decline. This reverse strategy minimized parking requirements thus allowing for greater in-fill. With the increased growth and tax revenues, parking concerns and planning can be dealt with as an infrastructure need. Centralized parking lots, which minimize the use of prime commercial property, can be purchased through funds generated by the Tax Increment District and through special assessments on the business district that created the need.

As the City grows, sites for additional parking should be identified. At this time, establishing a municipal parking lot in the business district is not a viable option.

## **Aesthetics**

An important part of redeveloping any area is its appearance. Many aspects of appearance will improve as the structural conditions are improved and streets are repaired, but some aspects of the appearance of a downtown and residential neighborhoods must be given special attention. Public improvements in a downtown or residential area often concern the appearance of the streetscape; specific examples are illustrated on the photo map. The streetscape is the combination of all elements in a pedestrian or vehicular area, usually the public right-of-way, and includes street furniture, landscaping, sidewalks, lights, signs and the relationship of each of these elements to each other and to adjacent buildings. Standards need to be adopted for the CRA with regard to these elements of the streetscape. For the purposes of this discussion, the streetscape includes the street furniture (items such as benches, planters, trash receptacles, kiosks), landscaping (items such as trees, tree grates, and irrigation) and lights.

TABLE 5

AESTHETIC NEEDS ASSESSMENT

Activity	Quantity	Estimated Unit Price	Total Estimated Cost
Benches	10	\$300.00	\$3,000
Trash Receptacles	10	\$300.00	\$3,000
Ornamental Lighting	TBD	\$1,500	TBD
Median Improvements	TBD	TBD	TBD
Pedestrian Crosswalk	3	\$1,000	\$3,000
Traffic Signal	3	\$3,000	\$6,000
Sidewalk Improvements	TBD	TBD	TBD

Ornamental lighting is planned for Berkman St. CR 466A will need ornamental lighting and median improvements when it is expanded to 4 lanes.

In order to make an area attractive for pedestrians, improvements to the appearance or the streetscape are necessary. Such improvements are now evidenced in Fruitland Park with very limited utilization in the downtown and residential areas. While individual property owners have made improvements to their building facades and, in some cases, upgraded and installed landscaping, there has not yet been a comprehensive program throughout the entire downtown to upgrade the streetscape. An 'aesthetics needs' analysis needs to be conducted for the overall CRA. A preliminary cost estimate is established in Table 5.

**Current and Future Capital Improvements in the CRA**

There are currently several capital improvements being addressed in the CRA as identified in the Comprehensive Plan. Future capital improvements in the CRA shall be in conformance with the Capital Improvements Element of the Comprehensive Plan, except for emergency or disaster related improvements.

### **CRA Boundary Description**

The CRA boundary description is defined in the legal description, Appendix C, which consists of all of the alternate keys within the Community Redevelopment Area.

### SECTION 3. MAJOR GOALS, OBJECTIVES AND POLICIES

Each section begins with a goal statement that outlines actions used to obtain specific outcomes. Measurable outcomes are identified where possible and completion dates are proposed. The objectives identify activities for achieving the desired goals of the downtown redevelopment.

#### A. PROPOSED GOALS AND OBJECTIVES:

**Goal 1**                      **Overall Redevelopment: Establish downtown Fruitland Park as a focal point for the community and attract visitors from the entire region.**

Objective 1.1              Increase the visual attractiveness and unity of downtown Fruitland Park by identifying a common theme and incorporating architectural standards into the LDR by 2016.

Objective 1.2              Encourage additional civic activities and community events in the downtown area by 2011.

Objective 1.3              Maintain and enhance existing development and encourage development of undeveloped or underdeveloped property in the CRA by 2011.

**Goal 2**                      **Overall Image Goal: Increase the visibility, identity and unity of the downtown through physical design, promotion and improved signage by 2011.**

Objective 2.1              Develop a unified advertisement campaign for downtown retailers by 2025.

Objective 2.2              Incorporate standards in the LDR for the redevelopment of historic structures by 2011.

- Objective 2.3      Publish a list of under-represented specialty retail shops by 2011.
- Objective 2.4      Redesign/construct "Welcome to the City of Fruitland Park" signs at CR 468 and Urick St. by 2008.
- Objective 2.5      Improve the road and sidewalk conditions in the residential areas.

**Goal 3                      Overall Land Use Goal: Foster a diversified economic base and the efficient use of land downtown.**

- Objective 3.1      Encourage the preservation and restoration of buildings of historic or architectural significance through the review, adoption and enforcement of a Historic Preservation Ordinance by 2011. Develop and implement design standards and a Design Review Board as part of the Historic Preservation Ordinance.

- Policy 3.1.1      The CRA Agency shall encourage the renovation of historic buildings to promote commercial office and limited residential facilities within and around the designated CRA by working with owners in the approval process and assisting them in obtaining possible funding from State and Federal sources.

- Policy 3.1.2      The City shall promote and encourage redevelopment of substandard or deteriorating housing through code enforcement.

- Objective 3.2      The CRA Agency shall analyze the need for facade improvements to commercial structures in the CRA by 2016. Commercial facilities that must comply with the Americans with Disabilities Act shall be included in the analysis.

- Policy 3.2.1      The need for facade improvements will be considered by the CRA Agency

and the City Commission during the budget allocation of the Community Redevelopment Trust Funds and during at least one public hearing related to the Small Cities Community Development Block Grant application process.

Objective 3.3            The CRA Agency shall annually review the need and feasibility of annexation.

Objective 3.4            The CRA Agency will pay all or a portion of impact fees to develop vested lots inside the CRA with CRA funds to promote infill.

Policy 3.3.1            Upon the determination by the CRA Agency that annexation is necessary, the Agency shall submit a report to the City Commission within six months.

**Goal 4                    Environmental Goal: Create an attractive, safe and comfortable environment that is conducive to activities during the day and evenings.**

Objective 4.1            Maintain City services for sidewalk maintenance and landscaping. Continue to encourage building improvements by property owners.

Objective 4.2            Maintain policies to encourage shade tree and other canopy features in the pedestrian areas by 2011.

Objective 4.3            Develop a handbook to assist civic groups with community events to be held in the CRA. Continue to hold or host special community activities and events in the downtown to draw visitors and community members to the CRA by 2016.

Objective 4.4            Emphasize pedestrian orientation in the CRA through landscape features,

pedestrian-scale lighting and street furniture. Begin a phased program by 2011.

Objective 4.5      Begin a visual enhancement program through the elimination of visual pollution by screening surface parking areas with landscaping or other means by 2016. Additional buffers between residential and commercial areas would aid in the beautification process.

Objective 4.6      Eliminate blighted and dilapidated structures to improve appearance of vacant lots and parcels by 2016.

Objective 4.7      Study the use of non-traditional walkways in the CRA by 2025.

Objective 4.8      Encourage the improvement of back lots and alleyways as a non-traditional open space for customers and downtown employees by 2011.

**Goal 5                      Transportation Goal: Continue to work with the MPO and other agencies to provide an integrated transportation system within and to the downtown.**

Objective 5.2      React to the results of the study completed regarding traffic circulation of the downtown and surrounding areas to determine the best circulation pattern.

Objective 5.3      Provide appropriate traffic control devices, which are integrated with the design of the downtown and which will improve traffic accessibility and internal circulation by 2011.

Objective 5.4      Develop a master plan for accessibility improvements for those with special needs within the redevelopment area by 2011. The Plan should include an analysis conducted on City owned properties located

within the CRA.

**Goal 6**                      **Public Services Goal: Ensure the provision of adequate and efficient public services to support additional development in the CRA.**

Objective 6.1              A comprehensive analysis of existing utility facilities within the CRA is currently underway to determine each system's capacity as it relates to existing land uses and possible increases in land use.

Policy 6.1.1                Continue to provide adequate City services and amenities in the CRA (such as parking and streetscaping) to encourage private investment in the CRA.

Objective 6.2              Continue to repair or replace old or undersized water lines in the CRA as needed and in conjunction with other construction.

Objective 6.3              Continue the retrofitting and installation of underground utilities within the redevelopment area. Leesburg Electric provides electricity and all new installations are underground. Retrofitting is beginning at the outer edge of their service boundary and will continue working its way inward.

**Goal 7**                      **Community Redevelopment Area Agency Goal: The CRA Agency shall aggressively develop, plan, finance and construct improvements to the CRA in an effort to further the redevelopment effort.**

Objective 7.1              The CRA Agency will continue to maintain a strong policy of utilizing redevelopment funds for those projects that can show justifiable gain in the property value or redevelopment impact in the CRA.

Policy 7.1.1                Create incentives for development in the CRA in order to achieve the desired mix of uses.

Objective 7.2            The CRA Agency shall allocate up to 10% of the funds generated by tax increment financing for the appointment or sponsorship staff that is responsible for development and redevelopment activities in the downtown and residential areas by 2011.

Objective 7.3            Development of a quarterly meeting schedule for the CRA Agency for the purposes of conducting and overseeing CRA business.

Objective 7.4            The CRA shall promote participation by local financial institutions in the CRA loan pool, which could be utilized in conjunction with funds maintained in the Redevelopment Trust Fund.

## SECTION 4. FINANCIAL PLAN

The following sources are based on identification of need and should not be considered an exhaustive list of financial sources:

### **Community Development Block Grant (CDBG)**

The Florida Department of Community Affairs administers the CDBG program as a "pass through" grant program from the U.S. Department of Housing and Urban Development. The program provides financial assistance to eligible local governments in the area of housing rehabilitation, neighborhood revitalization, commercial revitalization and economic development. The City was awarded the Neighborhood Revitalization CDBG grant in 1998. Various projects benefited from the grant including drainage improvements on Palm Street.

### **Community Contribution Tax Incentive Program**

This program was created by the Florida Legislature to encourage corporate involvement in community revitalization. This program allows businesses a fifty percent credit on Florida corporate income tax or insurance premium tax for donations to local community development projects. Donations must be made through an eligible nonprofit corporation conducting an approved community development project. This program can address the revitalization of the historic structures identified in the CRA. Eligible historic preservation projects have a goal to improve or substantially rehabilitate the housing, commercial, industrial or public facilities in a "historic preservation district." The City of Fruitland Park can promote private participation by utilizing this incentive program.

### **Housing Grants**

The City adopted a Housing Assistance Plan grant that would allocate \$100,000 city-wide with SHIP funds for very low incomes, low to moderate incomes, as well as health and safety issues inside CRA. This grant was adopted in August of 2006.

### **Economic Development Administration**

This Federal agency provides grants to fund public works projects. This grant/loan program assists distressed communities to attract new industries and residents, encourages business expansions and primarily focuses on generating long-term, private sector employment opportunities. As funding sources and project phases solidify, this program should be reviewed as a funding source to be matched with private funds.

### **Small Business Administration**

Most Small Business Administration (SBA) financing is done under the 7-A program, which focuses on working capital needs. Under this program, banks loan capital to small businesses and the federal government guarantees 90% of the loan amount. The loans usually extend for 5 to 7 years.

The other SBA program is known as "SBA 503". This program provides existing, viable small businesses with long-term below market rate financing for the acquisition of land and building, machinery and equipment and construction and renovation, which results in job creation. The CRA Agency, City Commission and other local interest groups should promote educational understanding of the opportunity that is available under these programs. The programs are administered through the Florida Department of Commerce, which is willing to provide on-site technical training and educational presentations.

### **Main Street Program**

This program is designed to foster economic revitalization of the central cores of small cities in Florida. The four elements of this program are:

1. Organization of downtown leaders.
2. Promotion of downtown as an exciting and attractive place in which to shop, work and live.
3. Address visual image of the downtown through quality design and preservation.
4. Analyze strengths and weaknesses of the downtown to bring about economic

restructuring.

This comprehensive approach emphasizes close cooperation between the public and private sectors and gradual implementation with periodic assessments.

One key to the success of the Main Street Program is the coordination provided by the local Main Street Manager. In Fruitland Park's case, the City Manager serves as the Main Street Manager. The City Manager works on the four Main Street elements and devotes all of his or her energies to returning the downtown to an environment that is vital and stimulating for all.

### **Tax Increment Financing**

The ability to use tax increment revenues for community redevelopment is authorized by Chapter 163, Part III, Florida Statutes. Once the City designates an area as the Redevelopment Area, the assessed valuation of the area is "frozen" commencing with the certified tax rolls as of a specified date, as the base year, in order to derive tax increment revenues. Such revenues must be used by the agency to pay for approved projects within the Redevelopment Area, either on a pay-as-you-go basis or as security for bonds, the proceeds of which must be used for such lawful purposes as described in Chapter 163, Florida Statutes.

Upon the adoption of this plan, a Tax Increment Financing Plan will be implemented with the creation of a Redevelopment Trust Fund, as specified in Section 163.387, Florida Statutes. Once the tax increment funds are deposited into the Redevelopment Trust Fund as a result of Tax Increment Financing, an assessment of long-term revenue stability needs to be conducted and the use of bonds based upon the tax increment revenues needs to be reviewed as a long term capital improvement source. Upon the completion of this analysis, the CRA Agency shall establish a time certain for completing all redevelopment financed by increment revenues, which shall occur no later than 30 years after the fiscal year in which the plan is adopted, as required by Section 163.362(10), Florida Statutes.

The financial assessment shall determine whether revenue bonds will be necessary to maximize the efforts to complete infrastructure projects within the 30-year completion period as required by Florida Statute. Revenue bonds issued by the CRA Agency shall comply with the requirements of Sections 163.387(4) & (5), Florida Statutes.

### **Special Assessment District**

The area intended for improvements can be established as a special assessment district where the individuals receiving benefit from the improvements will be assessed for their share of the improvements. This is usually done on a "front-foot" basis but can be done on an area-wide basis. Bonds can be issued using the revenues to be generated by the assessment district as security. The revenues raised are dependent upon the size of the assessment and project. Further analysis of this financing option will need to be included in future updates to this plan.

### **Local Contributions**

Local organizations and nonprofits can raise funds for specific projects identified in this plan. Every effort should be made to coordinate with the agencies identified under Intergovernmental Coordination. Funds raised specifically for needs identified in this plan by local organizations or nonprofits may be deposited into the Redevelopment Trust Fund.

### **Private Finance Pool**

The availability of public funds for private improvements in the Community Redevelopment Area is limited, making it impossible to address the immediate private needs of the area solely on government funding sources. As a result of this need and the development of this policy, a cooperative effort by local lending institutions is needed and shall be promoted through the development and implementation of this policy. Local institutions are encouraged to review this Community Redevelopment Plan and determine the level of involvement that their institution can offer to the needs identified herein.

The Community Reinvestment Act of 1977 requires banks to define a service area, assess local credit needs and make efforts to meet the community's needs. This plan can service as the

basis for goal establishment and planning for local institutions. The City of Fruitland Park, as the primary agent for this plan, will maintain a standing file for local banks to submit letters of participation. As the City develops specific plans for addressing both private and public needs in the CRA, participating institutions will be included in the development and financing phase of the projects. All letters of participation by financial institutions will be attached and shall become a part of this plan as they are received.

### **Budgetary Review**

At the first quarterly meeting after the Tax Increment Funds have been deposited into the Trust Fund, the CRA shall develop a budget for the proceeding year. The budget shall specifically establish spending categories and budgetary amounts. Any remaining unencumbered funds from the preceding budget year shall be deposited into an escrow account on the last day of the fiscal year of the CRA Agency for the purpose of later reducing any indebtedness to which increment revenues are pledged.

The CRA shall evaluate the programs and revenue sources listed above during the budgetary review process to insure maximum utilization of available resources.

Revisions to the budget during the fiscal year shall be preceded by public notice (Chapter 120, Florida Statutes), public hearing, and shall be approved by the majority of the CRA members.

Moneys in the redevelopment trust fund may be expended for the following purposes, in accordance with Section 163.387(6), Florida Statutes:

1. Administrative and overhead expenses necessary or incidental to the implementation of the community redevelopment plan.
2. Expenses or redevelopment planning, surveys and financial analysis, including the reimbursement of the governing body or the

community redevelopment agency for such expenses incurred before the redevelopment plan was approved and adopted.

3. Acquisition of real property in the CRA.
4. Clearance of real property for redevelopment.
5. Repayment of principal and interest for loans, advances, bonds, bond anticipation notes and any other form of indebtedness.

## SECTION 5. INTERGOVERNMENTAL COORDINATION

While all of the community redevelopment area is within the City limits and is therefore within the jurisdiction of the City Commission, there are other agencies and organizations that have an interest in or responsibility for the CRA. Those groups include the following:

1. Local Planning Agency
2. Community Development Block Grant Citizen Advisory Task Force
3. Fruitland Park Planning and Zoning Board
4. Community Redevelopment Agency

The success of this plan for the City of Fruitland Park depends upon the coordination of all responsible agencies and organizations for the CRA. Specific site plans for new construction or redevelopment in the downtown and residential areas will be reviewed by the Fruitland Park Planning and Zoning Board. The Fruitland Park City Commission, serving as the Community Redevelopment Agency, will have primary responsibility for carrying out the projects identified in this plan and ensuring the future integrity of the CRA. Decisions by the Fruitland Park City Commission should be carefully coordinated with the contents of this plan.

The CRA will comply with requirements for environmental assessment on federally funded projects and shall comply with the Governor's Intergovernmental Review Process, which insures compliance with State and Federal environmental protection regulations, on all construction related activities.

## **SECTION 6. COORDINATION WITH EXISTING CITY PLANS, POLICIES AND ORDINANCES**

### **Comprehensive Plan**

Section 163.362(2)(b), Florida Statutes requires that the Community Redevelopment Plan include limitations on the type, size, height, number and proposed use of buildings. However, this provision has not been revised since the passage of the Growth Management Act of 1985 and the subsequent requirements for Local Comprehensive Plans and Land Development Regulations. Therefore, the CRA Agency shall be bound to the adopted Comprehensive Plan and the Land Development Regulations. However, the CRA Agency shall make recommended revisions that would enhance the Community Redevelopment effort.

### **Antidisplacement Plan**

The City of Fruitland Park adopted an Antidisplacement Plan as part of the CDBG program. This plan shall serve as the Antidisplacement Plan for the CRA Agency. This plan provides a guideline for addressing both residential and commercial displacement by providing fair compensation for both voluntary and involuntary displacement.

### **Acquisition Plan**

If the CRA determines that the acquisition of property is required by the Community Redevelopment Plan and complies with the requirements of the Section 163.360(7), Florida Statutes, the CRA shall establish deed restrictions or covenants on all property acquired by the CRA for specific redevelopment purposes. The acquisition process shall be governed by the Fruitland Park Acquisition Plan that identifies procedures for both voluntary and non-voluntary acquisition. Acquisition of property, including easements and right-of-way, using federal funds shall occur in accordance with the Uniform Relocation Act of 1970, as amended, and with all State and Federal regulations which may apply. The CRA Agency has the right to acquire property through eminent domain pursuant Section 163.375, Florida Statutes. However, every effort should be made to utilize voluntary acquisition or alternative sites when possible.

### **Fair Housing Ordinance**

This ordinance promotes equal housing opportunity and prohibits discriminatory practices by timely processing of complaints, by conciliation and mediation, and by public hearings. The CRA Agency shall further promote fair housing within the CRA.

### **Procurement Policy**

The City of Fruitland Park Procurement Policies and Procedures for Community Development Block Grant Programs and Projects shall be deemed the official procurement policy of the CRA. The policy addresses methodology for all levels of procurement (i.e., simple, intermediate and formal).

### **Section 504 Policy**

The City of Fruitland Park is progressing toward compliance with Section 504 of the Rehabilitation Act of 1973, as amended, and is taking positive, affirmative steps to ensure satisfactory and timely compliance. The City is committed to ensure that it does not discriminate on the basis of handicap, nor any other factor which may set one group, or individual, apart from another. Actions being taken to promote nondiscrimination of those with disabilities include:

1. Adoption of a Compliance Policy
2. Self Evaluation of Public Facilities
3. Preparation and adoption of a Transition Plan
4. Installation of a Telephonic Device for the Deaf
5. Appointment of a Program Coordinator

Since the majority of the public facilities affected by this policy and the Americans with Disability Act are located within the CRA, it shall be a priority of the CRA Agency to address non-complying facilities identified in the transition plan. The CRA Agency shall analyze the requirements of the Americans with Disability Act prior to the design of capital improvements within the CRA.

## SECTION 7. CODE OF ETHICS

The officers, board members and employees of a Community Redevelopment Area Agency created by Section 163.357, Florida Statutes shall be subject to the provisions and requirements of Part III of Chapter 112, Florida Statutes.

If any such official, board member or employee presently owns or controls, or owned or controlled within the preceding two years, any interest, direct or indirect, in any property that he or she knows is included or planned to be included in a Community Redevelopment Area, they shall immediately disclose this fact in the manner provided in Part III of Chapter 112. Any disclosure required to be made by this section shall be made prior to taking any official action pursuant to this section.

## SECTION 8. CAVEATS

Areas not discussed in detail that present themselves during the implementation or construction phase will be handled as the situation may dictate so as not to impede progress. In every case, the City Manager will document the problem or situation and immediately communicate it to the City Commission. If the item is unique, it will be resolved at the appropriate decision level—ultimately by survey of elected officials if necessary. If the item has the potential for reoccurrence, it shall be resolved and then included as an addendum to this policy.
